

Explore the Grand Canyon

Michael: Hey Janine! Our group is waiting for your writeup so that we can move on.

Janine: Coming right up sir. Check it out, check it out:

See a different side of the magnificent Grand Canyon. Capture the magic of the Grand Canyon on a guided 5-day walking adventure through its highlights and hidden pockets. Kick things off with a hike along the popular South Rim, soaking in spectacular views of the Canyon and Colorado River, then continue to the less-visited and awe-inspiring North Rim. Let your local guides show you hidden trails, secret look out points and unusual wildlife, and spend your evenings in a scenic campsite beneath a sky full of stars. Between unbelievably beautiful walking trails and views to take your breath away, you're sure to have a grand old time.

Michael: Fantastic! It makes me want to go back there now.
